Summary

With a foundational education from Beykent University in Mechanical Engineering, my transition into tech enabling a unique blend of engineering principles and software development. Leveraging skills in databases complements my ability to create robust web applications. I thrive on innovation and efficiency, ensuring the seamless integration of mechanical concepts with cutting-edge programming techniques.

Work Experience

Elmam.   *Remote*

FULL-STACK DEVELOPER   *May. 2023 - May. 2024*

- Designed an overall service architecture and pipelines Tagging API SaaS product with the micro-services architecture.
- Implemented several API microservices .

- Deployed web applications on platforms like Heroku and Netlify, ensuring smooth deployment and maintenance.
- Designed and deployed WordPress websites, ensuring user-friendly interfaces and optimal performance.
- Managed version control and collaboration using GitHub for efficient development workflows.

Projects

Elmam   *Elmam*

FULL-STACK DEVELOPER   *2023 - 2024*

- A platform that allows you to make reports for your company.
- Using Moyasar platform.

StudyX   *StudyX*

FULL-STACK DEVELOPER   *2023 - 2024*

- platform allow you to choose the best universty.

Kadir-ind   *Kadir-ind*

FULL-STACK DEVELOPER   *2023 - 2024*

- Website for Kadir company.

GMR   *GMR*

FULL-STACK DEVELOPER   *2023 - 2024*

- A website for a recycling company.
- Have an admin dashboard.

Education

Beykent University   *Istanbul, Turkey*

MECHANICAL ENGINEERING (UNDERGRADUATE)   *Aug. 2017 - Aug. 2023*

Codecademy   *Remote*

C PROGRAMMING LANGUAGE   *2022*

Codecademy   *Remote*

Python programming language   *2021*

Harvard University   *Remote*

CS50   *2023*

Skills

Strongest Areas

Web Development

Programming Languages

C , Javascript, Python, Ruby

Libraries/Frameworks

Git, Node.js, HTML5, CSS, SCSS, Bootstrap, Bulma, Tailwind, Rails

Database

MongoDB, Mysql, MysqLite, PostgreSql

Platforms

Heroku , netlify
